Professional Summary

Dedicated and enthusiastic BCA final year student with a strong interest in web development and hands-on experience in building responsive websites using HTML, CSS, JavaScript, and React. Possess a solid foundation in programming with basic knowledge of Python. Passionate about creating clean, user-friendly web interfaces and eager to learn modern web technologies and frameworks. A quick learner and team player, looking for an entry-level opportunity to grow as a front-end or full-stack web developer.

Project

- **Personal portfolio website**
 - Developed a Personal Portfolio website as a college project for the course at ISM Patna.
 - Developed a responsive and visually appealing personal portfolio website to showcase my projects, skills, and experience. The site features dynamic routing, interactive UI elements, and smooth transitions, built using modern React practices and clean, modular CSS.
 - GitHub Link: <https://github.com/SanjanaBca/Portfolio-React->
 - **Amazon Clone website**
 - Recreated the landing page of Amazon using HTML and CSS to practice responsive layout design and UI styling. Focused on header, banner section, card layout, and footer.
